BEAM DESK

**MODERN &
CONTEMPORARY**

Beam system platform utilises the inherent flexibility of a telescopic sheet metal beam to construct a rigid desk under-structure

The design intent behind the telescopic beam is to facilitate the construction of a multitude of layouts and configurations utilising minimum number of stock components possible.

Tops are available in 25mm or 36mm thick, made to order in a choice of colours and finishes to compliment the working environment.

Underframes are available in black or silver.

Available in various sizes
