STORAGE - BOOKCASES & CUPBOARDS

Storage solutions with the flexibility and super efficiency every office needs keeping your workspace tidy and organised.

Design your own configuration with a choice of finishes including 6mm thick toughened glass doors and shelving for an impressive display area.

MELAMINE CUPBOARDS

Swing Doors

Our Melamine faced cupboards are fitted with swing doors.

The shell, doors and shelves are constructed from 19mm thick melamine (with an optional 25mm thick decorative top). The melamine doors and tops come in a matching finish range or 6mm thick toughened glass doors. The shelves are adjustable by 32mm intervals (max load per shelf: 80kg).

Metal handles and stabilizer feet in matching finish to the cupboard shells.

Glass doors are not lockable.

Additional shelves, suspension file rails, metal shelves for suspension files and telescopic cradles are all available to purchase to fit the filing cabinets.

LOCKERS

Steel coloured lockers manufactured to the highest specification

All the lockers shown in our brochure come with semi concealed hinges welded to the doors and riveted to the frame allowing easy replacement of doors. Doors are positioned within a rebated frame to enhance compartment security. Fitted with key locks as standard.

The carcasses incorporate nesting holes on all sides and return flange at the base for extra strength and to reduce floor damage.

All the lockers are coated in an anti-bacterial powder coating which is an effective solution to fight against bacterial contamination for the life of the coating. Independently tested and found to be 99.9% effective against MRSA and E-coli. Also shown to exhibit zero growth for fungi and moulds.

COSHH CABINETS

These robust metal cabinets have been designed to offer good structural stability and safely contain spillages with the cabinets leak proof sump.

Regulations apply to virtually all UK workplaces. There are mandatory requirements for employers to carry out coshh risk assessments. Substances hazardous to health are those products that are capable of causing adverse effects or disease arising out of exposure from work activities. Hazardous substances are those chemicals classified by CHIP and the new CLP regulation. Coshh and Acid cabinets are manufactured to the same specification as the dangerous substance cabinets.

RECEPTION - COUNTER DESKS

A reception desk needs to perform several important functions, therefore needs to be designed to make the best use of space available, the materials and finishes need to compliment existing environment.

The following pages show just a few different designs available to help show what is possible to achieve.

Our reception counters are made to order giving you the flexibility to choose colours and sizes. A designer will carry out a site survey and discuss your requirements in detail.

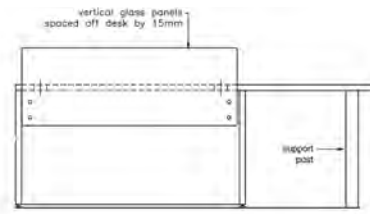

Please contact our Sales Office to discuss your requirements in more detail

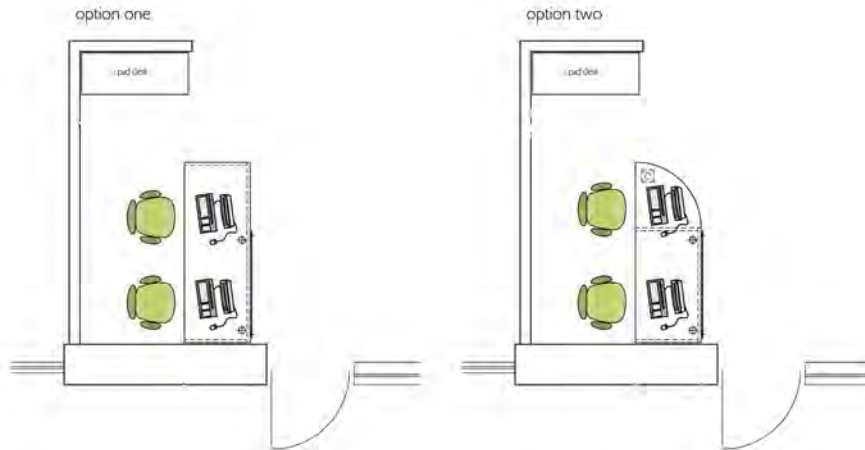

front elevation - option one

front elevation - option two

CAD Team

Our CAD team can help you plan the perfect solution for your Reception area

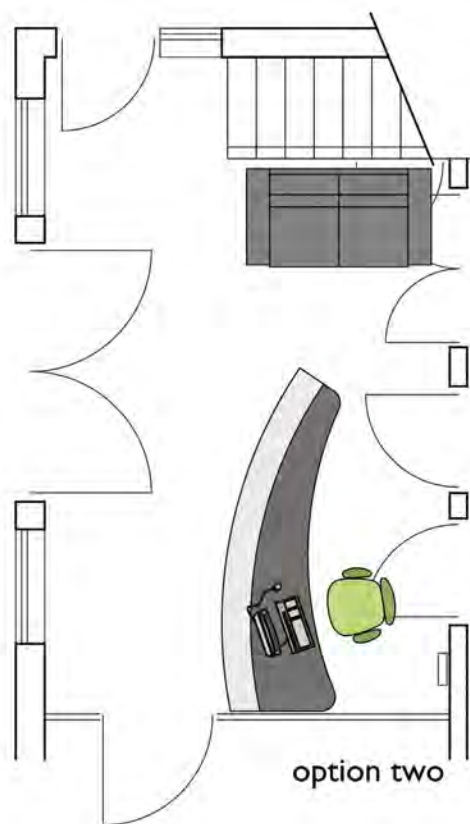

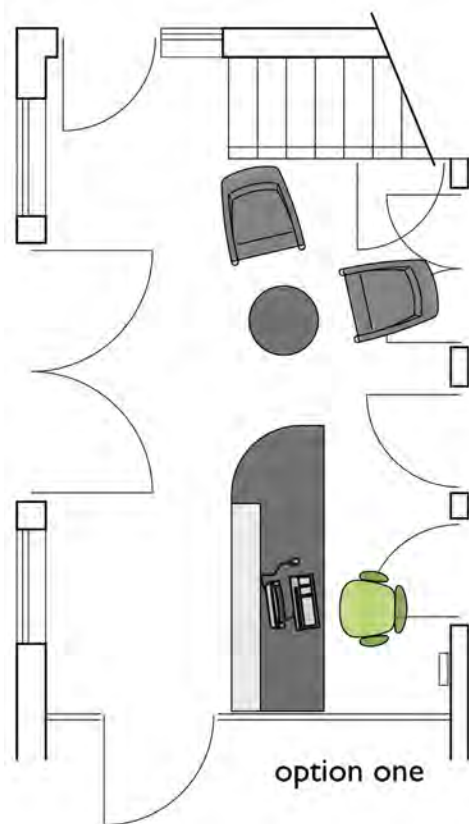

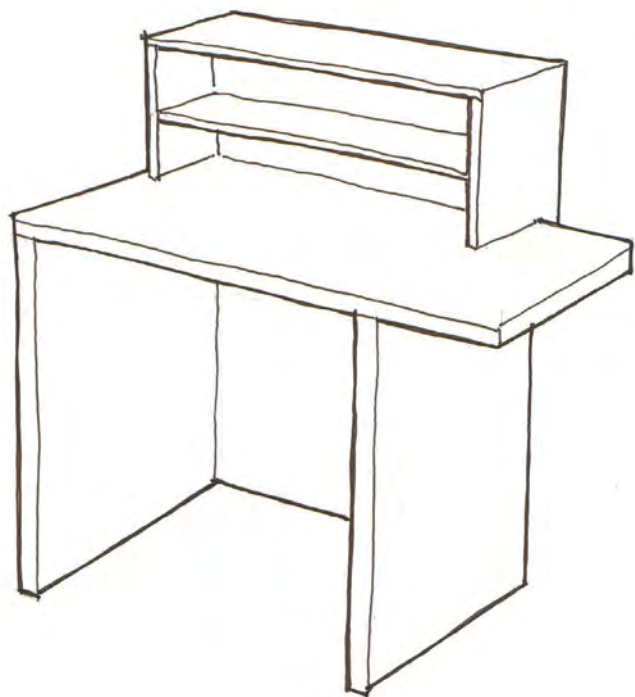

Creating a lasting first impression with this stunning selection of Reception Desk

Whether you are looking for compact and simple design with clean lines or a more professional, bespoke solution, we will have the unit for you

CONFERENCE & MEETING TABLES

Spaces for team work, briefings and impromptu meetings allows staff to reach their full potential and to communicate successfully with their co-workers no doubt inspired by their working environment.

Whether you are looking to create rooms within rooms, breakout areas, pods or an environment that simply encourages collaboration we believe this area should not be overlooked. We work closely with our client to create flexible solutions that provide modern aesthetics and media connectivity.

We can personalise your meeting and conference space with a touch of refinement and elegance, we believe this room is where some of the most important business decisions are made and therefore should not be overlooked

FLIP TOP TABLES

Designed to meet different price points, these simple self assembly flip top frames, perform the same basic tasks; however they do so with differing levels of ease, finesse and sophistication.

These tables can be quickly arranged and re-arranged, making them suitable for areas hosting conferences, meetings, events and courses.

Table tops are constructed from 25mm MDF or MFC and made to order, offering you a wide selection of finishes to enable matching or contrasting colours for your required area. Underframes are finished in black, white or silver and fitted with locking brake castors.

Please contact our Sales Office to discuss in more detail

**DESIGNED TO BE
STORED AWAY
WHEN NOT IN USE**

FOLDING TABLES

If you have limited storage space then the Everyday folding table is the most convenient way to save space. Folding flat by a discreet mechanism under the table top.

Table tops are constructed from 25mm MDF or MFC and made to order, offering the you a wide selection of finishes to enable matching or contrasting colours.

For Health and Safety reasons we would recommend that 2 people assist with folding the tables.

There is also the option for storage trolleys to make moving the tables to various locations easier.

Please contact our Sales Office to discuss in more detail

**FOLDING MECHANISM
ALLOWS EASY STORAGE
WHEN NOT IN USE**

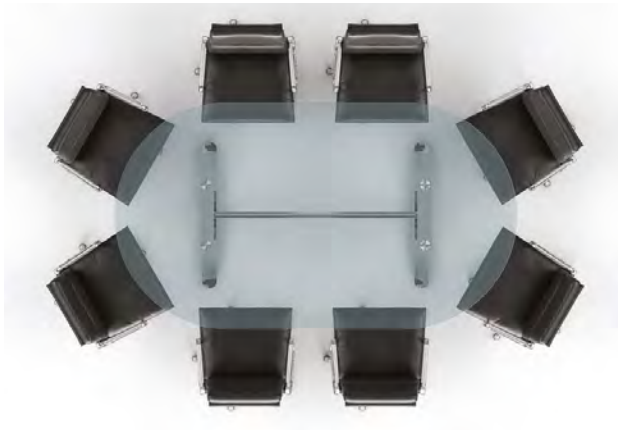

BOARDROOM TABLES

From a traditional masterpiece to a minimal modern centre piece, you can tailor your table to suit your requirements.

Our boardroom tables are bespoke, a representative can come to your site to discuss your requirements and to carry out a site survey ensuring you get the best design for your area. We offer a wide range of options from glass to the traditional wooden finish.

Please contact our Sales Office to discuss in more detail
